Uber is so far the safest, most affordable, and most convenient form of alternative transportation in SC. KEEP IT PLEASE!

It is ridiculous that they have jumped through every hoop you have given them and you still are shutting them down because you are afraid of something different. Other states have accepted this as the future, and as a life long citizen of South Carolina, I have watched us be behind other states simply out of stubbornness and fear of change. Not to mention we are pushing tourism in this state, and there are numerous of tourists that trust uber more than local taxis, so you are hindering our state there as well.

I support Uber and do not feel as though you should regulate it.
I understand that you are voted in by our state representatives and they are paid by the lobbyist to protect the other forms of transportation. This allows you to be persuaded by them.

I would like you to reconsider your decision.

Thanks

I just learned that the Public Service Commission issued an order directing Uber to cease and desist operations. This makes absolutely no sense. Uber wouldn't exist if the current taxi system worked. Hope this order is invalidated somehow.
